My tutor was excellent , i will definitely come back here. Props to you guys this is a great site and it helps many people. I'm going to recommend it to everyone i know that could use help on something. That is amazing that people give their time to help students and adults through things that may not be easy for them to understand.	9th

Everything in this online classroom helped me with questions I had on many other problems in physics so I thank my tutor.	12th
I loved having the help! It's much easier to have someone explain the problem and help me work it out than to try to ask a specific detail of a question to my teacher!	12th
This tutor was great but didn't ask me if I had any more questions after we were done.	12th
Helped me a lot, but compared to some virtual classrooms, it was subpar. I'm being nit-picky, but I think the conversation should be like in a column to the side rather than in the space of the whiteboard. Other than that, sweet service and totally got me un-stuck. I'll use it again for sure. P.S. Tynan is rad	12th
