### **Niche Academy Webinar: Is Reference Dead?: Practical Considerations for Evaluating and Improving your Reference Services**

**August 3, 2022 1:00 PM – 2:00 PM CST**

In this presentation, Christina Holm and Sarah Kantor will discuss how reference staffing models may be a significant predictor of a decline in reference questions.

They will review the results of their two-year case study which indicated that among five staffing models: (1) staffed and visible reference desks, (2) on-call and visible reference desks, (3) staffed, unseen reference desks, (4) on-call, unseen reference desks, and (5) chat reference, where librarians and users “talk” to each other in real-time using special software, users seem to prefer staffed and visible reference desks.

Drawing from these conclusions, Kantor and Holm will present practical suggestions for improving or promoting reference services in academic environments as well as discussing how COVID-19 continues to impact reference services.
