Public Library, Maddock Community Library, McVille Community Library, Minot Public Library, Mohall Public Library, New Town Public Library, Ward County Public Library, and West Fargo Public Library.

Old and New Business:

Soucie asked for volunteers to work on:

- Rebuilding the grant rubric committee: Soma and Galeazzo volunteered to work with Soucie.
- Grant writing library guide committee: Dirks, Dockter, and Oltz volunteered to work on this.
- Grant Guidelines template committee: Dirks, Dockter, and Oltz to work on this. The committee must include a better question per “What is your Library Vision goal” to explain what is asked for.
- Sharp mentioned the grant application has a lot of redundancy in filling it out. Soucie will work creating an application template for simplifying the process.
- Clairmont will work on a financial report template for the Council.

NDSL will do reports to the Council on the outcome of the awarded grants and money spent. Timeline to be established. Committees will provide the new templates to NDLC for their review at the next meeting in June.

Grants to do for the next round:

1. Marketing Grant
 - a. Do schools need marketing? was asked. Yes, because they work with the goals of their districts, keeping librarians vital in school libraries.
 - b. Marketing through advocacy, “Increasing the value of libraries”, a marketing plan is one component of this. Articulating this is absolutely key, information sent out for the application will need to be robust for well thought out grant applications. The Council sees two grants here. Advocacy part benefit from a partnership between libraries.
2. EDI Grant
 - a. Will have an EDI Goal. What types of libraries would qualify for this grant? This grant would be easier as a collection development grant by getting these types of materials to the libraries collections as a place to start.
 - b. Future EDI grant applicants must take training prior to applying for the grant. They would explain what EDI training they have done as part of the application. They would have to have a library program, etc. before their final reimbursement is made.
 - c. Must be promotional at their level. Must have more accountability, using in the best way possible. Do articles or a bibliography of titles purchased.
3. Digitization Grant – Fall grant

Meeting Adjourned: 11:00 AM
