# FOREWORD

The Special Education staff is pleased to present this annual report to the Superintendent of Public Instruction and the citizens of North Dakota.

The major portion of this report describes the numbers, programs, funding, and special projects for the 2005-06 school year. Funding was provided to special education units through Part B of the Individuals with Disabilities Education Act (PL 105-17) and state special education funds. A state summary, individual unit, private schools and state-operated programs are detailed in this report.

In the 2005-06 school year, 13,883 students with disabilities ages 0-21 received special education in North Dakota. This compares to 14,312 students with disabilities ages 0-21 served during the 2003-04 school year. This report represents continuing progress toward the special education's role in meeting the goals of the department. They include:

- Goal 1: To coordinate comprehensive, systemic, collaborative planning which enhances educational opportunities and services for all.
- Goal 2: To secure the human and financial resources to support a comprehensive system of educational opportunities.
- Goal 3: To provide technical assistance, consultation, and other services that empower educational service providers.
- Goal 4: To foster quality education through the meaningful implementation of statutes, regulations, policies, and procedures.

Continuing to work towards the achievement of the above goals remains a priority of the Department of Public Instruction.

Through the Special Education Annual Report, the Office of Special Education extends its appreciation to all professionals, legislators, and parents who have made it possible to maintain our common commitment to serve children with disabilities in North Dakota.

Robert C. Rutten  
Director of Special Education  
Department of Public Instruction
