

Title I Informational Directory

A resource directory with contacts to get information on programs, activities, forms, requirements, and technical assistance pertaining to the Title I program.

The purpose of this document is to be an informational resource for Title I Teachers. It contains a vast variety of resources on multiple content areas.

The State Title I Office does not necessarily endorse or recommend any particular resource listed in this directory. We simply have made an attempt to include programs/resources that we are aware are being used in North Dakota. This document may not be inclusive of all programs/contacts being used. We will continually add to the document and revise it as we receive additional information.

Our purpose is only to provide a directory of resources and let you, as Title I Teachers, decide what works for you and your school.
